Old Business:

Errors on new website dahowintergroup.org:

In search results the “Find A DAHOW Meeting” link and the “Weekly Schedule of DAHOW” both have error messages of “Error 404.”

Other Business:

A member not present suggested that a Google doc or other format be used in lieu of having a list administrator in order to allow members to add themselves to the contact list. Melissa expressed concern that an open, un-moderated list could make members vulnerable to inappropriate contact. The group decided to revisit the issue next month, so the member who introduced the topic could be present.
